

## In the Oil Fields

## Rate of Gain in Petroleum Stocks Shows Decrease

Figures on total liquid stock of petroleum in the United States at the end of June show the amount to have been 391,000,000 barrels, an increase of 9,000,000 over the figure of 382,000,000 barrels shown at the end of May. The June increase in stocks of crude and refined, was at the annual rate of 119,000,000 barrels, as against an annual rate of 129,000,000 barrels in May. The annual rate reflected in the increase for June, 1921, was 375,000,000 barrels, while at the end of August, 1922, when producers first began to be alarmed at the possibility of an era of overproduction, they amounted to approximately 195,000,000 barrels.

## Oil Field Under Gulf of Mexico

WASHINGTON — Existence of huge, untouched oil fields under the Gulf of Mexico strongly indicated in data just compiled by the naval hydrographic office and made public today. Many recent reports to the hydrographic office by ship captains tell of oil bubbling up through the water. Ship officers have described passing through large oil "slicks."

## Bolivian Oil Concessions

BUENOS AIRES — Following is extracted from a telegram to La Nación from La Paz: Bolivian government has signed contract with Standard Oil Co. in response of petroleum concessions covering 1,000,000 hectares in Chuquisaca, Santa Cruz and Tarija. Contract stipulates for term of 55 years, state to receive normally 11 per cent of total production, with special provisions in eventuality of war. Concessionaires are required to deposit guarantee of quarter of a million bolivianos (about \$100,000) and to reimburse any right to diplomatic intervention in case of disputes. Telegram to La Prensa contains practically same information, although it states that Bolivian government has received approval of transfer of Standard Oil company for term of 50 years.—London Times.

## Modern Girls Smarter

At the age of 102, Mrs. Mary Anne Thompson, of Winthrop, Mass., announces she is thinking of getting her hair bobbed. She probably has a sense of humor and is "attracting" us. Concerning flapperism, she comments: "The modern girl is much smarter than the young girls of my day at heart, they are the same lassies who on Sundays primly carried a little coal stove with them to church to keep their feet warm. Each generation makes its young people are going to the dogs, and so, each has been mistaken."—Capers.

## Replacing of Bituminous Coal by Oil and Hydro-Electric Power

That the United States is entering an era which will be characterized by striking changes in industrial methods, is the comment frequently heard when men of large affairs meet. They expect a decrease in the use of bituminous coal and consider it significant that the Chicago, Milwaukee & St. Paul railroad employs hydro-electric energy on 800 miles of its lines, while the Southern Pacific is equipping many of its locomotives to burn oil. These facts indicate that sources of power have been comparatively untouched. Time is probably not far distant when all the Southern Pacific locomotives will burn oil. The use of hydro-electric energy on the St. Paul system entails the employment of not a single pound of coal. The partial abandonment of bituminous coal by these two great railways and probably the complete abandonment of it after several years will reduce the annual demand for bituminous coal by many millions of tons. The fuel supply, domestic and imported, will be sufficient for many years to come to take the place, gradually but surely, of bituminous coal.

## Oil Railroad Sale Program Rejected

WASHINGTON — Because New Orleans, Texas & Mexico railroad proposed to pay \$25,000 for \$25,000 in par value stock, which constitutes the control of the Dayton-Goose Creek railway in Texas, the Interstate Commerce commission refused to authorize the transaction. The price proposed for the Dayton line, the commission said, was "greatly in excess of the physical valuation of its property," and while the larger railroad expected a traffic advantage from the deal was held to be disadvantageous to the general transportation interests. Asked for a statement, H. S. Sterling, president of the Dayton-Goose Creek Co., and owner of the Dayton-Goose Creek road, said it would properly come from J. S. Pyatt, president of the New Orleans, Texas & Mexico, and

COME ON, OL' WISEACRE - IT'S FOR YOU / HIS MAJESTY, TH' LANDLORD SAYS TH' OL' BUZZARD UPSTAIRS IS CRABBIN' ABOUT TH' NOISE - I S'POSE THAT LOUD-SPEAKER IS GRATTIN ON HER NERVES, TOO / COME ON - DON'T CRINGE / NOW'S YOUR CHANCE TO LISTEN-IN ON A PROGRAM THAT AIN'T ADVERTISED / I'LL SAY TH' OL' LANDLORD'S SOME BROAD-CASTER, TOO / 'BOUT TOMORROW HELL BE BROADCASTIN' OUR FURNITURE OUT IN TH' STREET / DON'T WEEP, DAVE - IT'S YOUR PARTY - NOT MINE / G'MON / GRAB IT WHILE IT'S HOT!

LISTEN NAN / GO ON - YOU TALK TO HIM / TELL HIM I'M JUST TESTIN' TH' THING OUT / PLEASE / YOU KNOW HOW T' KID 'IM ALONG - GO ON, HONEY / I-I-I MIGHT LOSE MY TEMPER - THEN WHAT?!

that he did not care to make a declaration at this time. Houston Chronicle.

## No Shut-Down Program in the Henryetta Field

HENRYETTA, Aug. 22.—While new production in the Henryetta oil fields fell off less than one thousand barrels for the week ending Saturday 19, there were probably more new locations and spudding than for the past two months, while work on wells now drilling went along as usual. The 3-11-12 district opened by the Eagle-Picher Lead company, and joined in by W. R. Pine, the Kingwood company and others of local prestige is keeping well up on locations and drillings, while much wildcatting is shown to be going on over the district. George S. Bullock, field expert of the Eagle-Picher Lead company, has been permitted to leave the hospital, after an operation for appendicitis. The Phillips Petroleum company have opened local offices in the new Phoenix building. Grover Haun, who brought in a big gusher on the west city limits is preparing to put down two additional wells on same location. T. H. Curd & Co., dealers in oil field and operators office supplies, has opened a complete supply house in the Phoenix building. The job for the week ending Saturday 19th shows as follows:

O'Neill Petroleum company with 20-quart shot has 5 barrels at 1,241 feet in the center of the east line of the southwest of the northeast of 12-11-12.

W. Phillips has 4,000,000 gals at 2,804 feet in the northeast of the southwest of the southwest of 12-11-12.

Phillips Petroleum company has 75-barrel natural at 2,652 feet in the center of the east line of the southwest of the northeast of 24-11-12.

Eagle-Picher has 250-barrel natural at 2,387 feet in the southwest of the northeast of the southwest of 3-11-12.

Black Petroleum company has 300-barrel natural at 2,390 feet in the center of the north line of the southwest of the southwest of 34-12-12.

Sykes & Gilcrease has 10-barrel natural at 2,364 feet in the center of the northeast of the northeast of 18-12-12.

Braswell Burns and others are shut down at 2,840 feet in the southwest of the southwest of the southwest of 35-11-12.

Robinson Letcher are shut down at 2,607 feet in the southeast of the southwest of the northeast of 35-11-12.

Eagle-Picher are rigging up in Missouri-Kansas-Texas Railroad Company hereby gives notice that on August 11, 1922, it filed with the Interstate Commerce Commission at Washington, D. C. its application for authority to acquire and operate certain lines of railroad, aggregating approximately 1,810 miles, and other property in the states of Missouri, Kansas and Oklahoma owned or leased by Missouri-Kansas-Texas Railroad Company or by The Wichita Falls & Northwestern Railway Company.

Dated St. Louis Mo., August 21, 1922.

MISSOURI-KANSAS-TEXAS RAILROAD COMPANY.

By C. E. SCHAFER, President.

the center of the east line of the north half of the northwest of the southwest of 3-11-12.

Eagle-Picher spudded and shut down in the southeast of the northeast of the northeast of 3-11-12.

W. R. Pine is standardizing at 2,240 feet, in the northwest of the northeast of the northeast of 3-11-12.

W. R. Pine is drilling at 2,630 feet in the center of the north line in the northeast of the northeast of 3-11-12.

W. B. Pine is drilling at 2,500 feet in the center of the northeast of the northeast of 3-11-12.

W. B. Pine is plugging back at 2,945 feet with oil show in the northeast of the northeast of the southwest of 3-11-12.

Kingwood Oil company is drilling at 2,453 feet with 25-barrel show in the northeast of the northeast of the northeast of 4-11-12.

Kingwood Oil company has location in the northeast of the southwest of the northeast of 4-11-12.

W. R. Pine is swabbing at 2,300 feet with a 50-barrel show in the southeast of the northeast of the northeast of 4-11-12.

W. B. Pine is drilling at 1,520 feet in the northwest of the northeast of the northeast of 4-11-12.

Kansas Gulf has rig in the northwest of the northeast of the northeast of 6-11-12.

Basic Petroleum company has shut down at 2,880 feet with hole full of water in the southwest of the northwest of the northwest of 19-11-12.

Gypsy Oil company is resetting

the 5-inch casing at 2,770 feet in the southwest of the northwest of the southwest of 19-11-12.

Gypsy Oil company is fishing at 2,575 feet in the northwest of the southwest of the southwest of 19-11-12.

Gypsy Oil company is rigging at 2,941 feet in the center of the west line in the southwest of the southwest of 19-11-12.

Oklahoma Central has casing trouble at 3,340 feet in the northwest of the southeast of the northwest of 27-11-12.

McMahon and others are shut down at 2,800 feet with a hole full of water in the northwest of the southeast of the southwest of 29-11-12.

General Investment company is drilling at 2,225 feet in the northwest of the northeast of 33-11-12.

Killebrew and others are shut down for casing at 2,080 feet in the northwest of the southeast of the southwest of 33-11-12.

Western States Petroleum company are cleaning out at 4,193 feet and will shoot in the northeast of the southeast of the northeast of 14-12-12.

Dalton and others have shut down at 3,756 feet with a hole full of water in the northeast of the northwest of the northwest of 12-12-12.

Oil Tonnage Breaks Freight

LONDON.—Cause of steady decline in tanker freights becomes apparent on considering that tonnage in 1914 was only 1,479,000 tons, and is now 5,057,000, an increase of over 240 per cent. In January 21s. 6d. could be obtained for shipments from North America to Europe. It is now difficult to get 15s. 6d. Business from Gulf of Mexico can be done at 19s.

## September 1 Is the Last Date You Can Pay Your Paving Tax!

## Radix Bottling Co.

Cedar—503—Osage

## Radix Carbonated Beverages

compared with 20s. last January, and from California 22s. 6d against 42s. Time charter rates have dropped from 8s. 10d. to 4s. 9d. Considerable cuts have been made in operating expenses but these can only cover a comparatively small part of the loss which must naturally fall more severely on boats not run as subsidiaries of big oil companies. It is satisfactory to note, however, that volume of tonnage building has dropped from 2,200,000 tons at end of 1920 to 800,000. Opinion is fairly general that an improvement may be looked for this autumn and owners favor short charters.—Wall Street Journal.

## Oil Burning Locomotives in Argentina

July 14 Issue of Review of River Plate says: "It is announced that in a few days petroleum-burning locomotives will be in service on state railways on passenger trains running between stations of Santa Fe, Laguna Palva, Cruz del Eje and Cordoba. Twenty-six locomotives have been already adapted for petroleum burning. Petroleum to be consumed will be brought from Comodoro Rivadavia. Two storage tanks have been erected in city of Santa Fe, each having capacity of 8,000 tons, and similar tanks, each with capacity of 200 tons, have been put up at different stations along route. Tank erected at Cruz del Eje has capacity of 1,000 tons."—New York Commercial.

## Americans Make Charges in Roumanian Oil Muddle

BUCHARIST, June 25.—(By mail to avoid censorship)—Charles S.

Vopicka, of Chicago, former United States minister to Roumania, and former Senator J. Hamilton Lewis of Illinois are here in attendance before the special session of the Roumanian parliament to get confirmed a grant for oil and railroad privileges. Vopicka is the financial agent here for the New York and Chicago bankers to whom the concessions were given. Former Senator Lewis is counsel.

A sudden coup against all American interests was given by parliament in a special act that turns over to England all loans and foreign concessions.

It is charged that in some secret manner the agents of England have undermined the American interests and turned them out of the country. Lewis and Vopicka said they will report to Secretary Hughes on their return to the United States of the dangers to American capital through intrigue of foreign countries which profess friendship to America.

## Motor Registration

AKRON.—Automobile registration by sections of United States, as tabulated by Akron chamber of commerce, shows greatest gains in middle western states where increase is more than 400,000 over last year. Southern states show an increase of over 275,000 since July 1, 1921.

Garibaldi Veteran Dead.

MERRA, Neb., Aug. 22.—Patrick Kelly, 110 years old, died here yesterday. Kelly, who came here from Streator, Ill., in 1854, was born in Dublin, Ireland, in 1812 and is said to have been a veteran of Garibaldi's army during the Crimean war.

Our English Language.

Misplaced phrases cause many misunderstandings. Here are some collected by Everybody's Magazine from publications all over the country:

The owners of apple trees, some of which have not been looked after for years are undergoing pruning all through this section.

"Special dining-room for ladies, steaks and chops."

For sale—five-room house, all modern. Good chicken-house.

A physician advises parents never to spank a child on an empty stomach.

The jury is composed of nine men and three women all mothers. Opening arguments will be made and the first testimony offered this afternoon.

Thicker After They've Dined.

"I suppose the mosquitoes are thick out where you live."

"No, long and slim."

## Is There Any Oil on Turkey Mountain?

Here is the answer, as given in the news columns of the Tulsa World yesterday:

## West, Webber, Obin &amp; Smith Well on Turkey Mountain a Big Producer

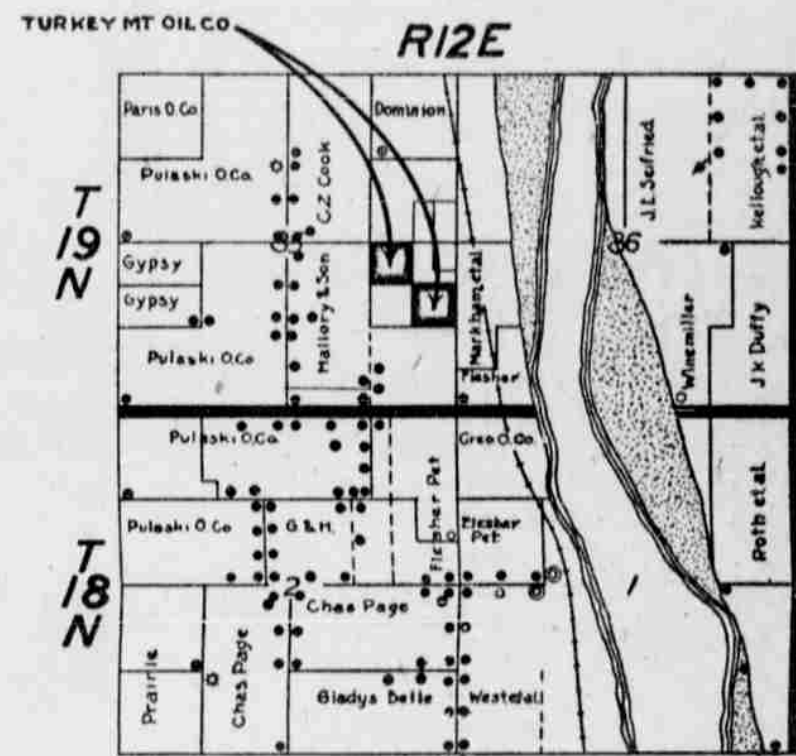

The West, Webber, Obin & Smith well No. 7 on the Viola Edwards tract in the northwest corner of the southwest of 1-18-12, Turkey mountain, came in late Saturday night flowing 800 barrels the first 15 hours at three feet in the Wilcox sand topped at 2,148 feet. Sunday morning this producer stopped flowing a few hours, but started off again Sunday night and has been putting out 900 barrels daily in to the tank ever since. The same interests No. 5 on this lease is a 100-barrel well and No. 6 is good for about fifty barrels, all of them in the Wilcox pay.

## Charles Page Has Big Well on Turkey Mountain

Turkey Mountain again has the limelight with three big producers in one day. Charles Page completing a 500-barrel well in the Wilcox sand found from 2,170 to 2,180 feet in his well No. 5, located at the northwest corner of the southeast of 2-18-12.

## Flesher Petroleum Inside Pay Again on Turkey Mountain

The Flesher Petroleum corporation has a 50-barrel producer at 7 feet in the Wilcox sand topped at 2,229 feet, in No. 2 McIntosh farm in the northwest of the northeast of 1-18-12.

Do You Want Some of the Profits?

The Turkey Mountain Oil Company Offers to the Public

An opportunity which we are confident is without parallel in the entire history of the oil industry. This opportunity can be embraced not only by the large investor, but the small one as well.

## What the Turkey Mountain Oil Company Is

The Turkey Mountain Oil Company is a common law trust divided into sixty-four hundred shares of par value of ten dollars (\$10) each. The funds of the trust and the management of its property and business are in the hands of a trustee whose rights and powers, together with the character of the trust are set out in a declaration of trust filed for record in the office of the County Clerk of Tulsa county, Oklahoma. The stock in the Turkey Mountain Oil Company is not subject to any increase in the number of shares to be issued until the majority in interest of the shareholders increase it. An investor may know precisely what his interest is in the Trust by the following table:

1 share at \$10.00 equals a 1-6400th interest.

10 shares at \$100.00 equals a 1-640th interest.

100 shares at \$1,000.00 equals a 1-64th interest.

## Our Guarantee

We guarantee:

FIRST: That the money of every shareholder will be deposited in the National Bank of Commerce of Tulsa, Okla., and that the same will be paid out when, and only when, a valid assignment has been received and a well started under a contract on the part of the drilling contractor to drill and equip the well, for the carrying out of which bond with ample security will be required.

SECOND: That a valid assignment of the oil and gas mining rights in the southeast quarter (SE 1/4) of the Northeast quarter (NE 1/4) of the Southeast quarter (SE 1/4) and the Northwest quarter (NW 1/4) of the Northeast quarter (NE 1/4) of the Southeast quarter (SE 1/4) of section thirty-five (35), township 19 north, range 12 east, as provided in the existing lease and the declaration of trust, will be delivered to the Turkey Mountain Oil Company, that a well will be drilled to the Wilcox sand, and that the well will be supplied with all the necessary equipment to take care of the production from the well.

THIRD: That unless the assignment is executed and delivered and the well spudded in under a bonded contract to complete to the Wilcox sand, we will return by check on the National Bank of Commerce the amount deposited, without any deductions whatever.

## FILL OUT THIS COUPON AND MAIL

TURKEY MOUNTAIN OIL COMPANY, 329-330 Mayo Bldg., TULSA, OKLA.

Gentlemen:

I enclose herewith \_\_\_\_\_ Dollars in payment of \_\_\_\_\_ shares of the Turkey Mountain Oil Company. It is understood that a temporary receipt will be issued to me for this amount at once; that this money will be deposited in the National Bank of Commerce of Tulsa, Oklahoma, and that as soon as the Turkey Mountain Oil Company has acquired title to the property proposed to be developed, and a well has been begun under contract executed under bond to drill the same to the Wilcox sand, a certificate for the number of shares will be issued to me, but if not that the full amount of money subscribed will be returned to me.

Yours truly,
